On each side of the doorway, and surrounding the latter G. were graceful engravings of natural green ivy. Two large scrolls of gold, which were arranged on either side of the door bore the words, "Peace" and "Fidelity." The pictures presented by the bank of flowers which surrounded and surrounded the sepulchre on every hand were so arranged as to give the effect of a triumphal archway.

Stands capable of seating several thousands of people had been erected around the tomb, and the troops were formed in front. Gen. Logan came with the Grand Army of the Republic, and was escorted by them to the platform. The United States steamer Sigsbee and the schooner Sigsbee were also present.

## THE STRONG MIND.

She says of the good that will come to the world:  
When women all have their say;  
But she won't dress up in a low-neck waist,  
Because she's not built that way.  
—New York Times.

## BRIEFINGS.

—Another detachment of the Salvation Army arrived in the city to-day.

—And now for Fourth of July. Fire works already appear in some of the store windows.

—Harry Gestford, of the fourth ward, is the proud father of a girl baby that arrived last night.

—The funeral of Miss Anna Slavson will be held at the home to-morrow afternoon at two o'clock.

—Oriental Lodge No. 22 Knights of Pythias, assembled in Castle hall this evening—regular weekly meeting.

—Janesville City Lodge No. 90, I. O. O. F., assembled in regular weekly meeting this evening at Odd Fellows hall.

—Western Star Lodge No. 14, A. F. and A. M., assembled in regular semi-monthly communication this evening at Masonic hall.

—Chautauque circle Friday evening at 7:15. Questions from May Chautauque, Bring Longfellow's "Poems. Quotations about flowers.

—The Milwaukee Journal in its report of the Merchants' banquet says: Ogdon H. Kethers, of Janesville, with "Commerce" for a subject, proved himself the orator of the evening in a short and comprehensive effort.

—The regular monthly meeting of the Women's Foreign Mission circle, of Court Street church, will meet in the Sabbath school room, Wednesday, June 2d, at half past three in the afternoon. This meeting will be of special interest to all members.

—The case of Tallman against the Chicago, Milwaukee & St. Paul railway is before Judge Bennett to-day. In this case the plaintiff sues for damages on account of the burning of some cigars in the freight depot fire. H. L. McElroy and John M. Whitehead appear for the plaintiff, and A. A. Jackson and R. H. Field for the defendant.

—The regular monthly meeting of the Prohibition club will be held in Good Templars hall, Court street, M. E. church block, Wednesday evening at 7:30 o'clock. An entertaining program is prepared, consisting of good music, speeches, etc., and it is hoped that every man and woman interested in this great cause will be present.

—The following notice taken from the Canton, (D. T.) News, will interest many in this city where the bride received many congratulations:—Married, at the residence of N. C. Nash, by Rev. L. Kingsbury, on Tuesday evening, the 18th inst., Miss Clara B. Williston, of Janesville, Wis., to Mr. Mark Randall, of this city. No cards.

—The University Glee Club will sing at Court Street church next Friday evening, and the Gazette is pleased to assure the public that the concert will be first class in every particular. Some of the gentlemen composing this club are well known to Janesville people, and every member is an artist of ability. Reserved seat tickets for sale at Proutie & Evanson's.

—This afternoon, about 4 o'clock, as two ladies were riding in a single buggy on South Main street the kingbolt was thrown out and the horse, with the two front wheels started on a gallop toward town. At the corner of Main and Milwaukee streets the animal fell, cutting himself badly about the knees, and was caught before he could rise. The ladies were thrown out into the street at the commencement of the runaway, but escaped without serious injury.

—The sand hill just beyond Cold Spring brewery is being made into a smooth, level, passable road. Street Commissioner Morgan has had a force of men at work on it for several days, and the covering of broken stone that has been placed on it has improved it wonderfully. Milton avenue is also being repaired, and before being finished will be thoroughly graveled for a considerable distance from the city.

—Charles Hill was before Judge Patton again this morning. He has fallen back into his old ways and the judge, thinking that the longer he was kept away from demoralizing companions the better it would be, gave him a sentence of five days' hard labor, with a fine of five dollars. If the fine is not paid Charles will be obliged to spend an additional twenty days in the county jail, so he stands an excellent chance of tarrying with Sheriff Hathorn for nearly a month to come.

—Two young people from Monroe appeared before Justice Wickham this morning and expressed a desire to be united in wedlock. The young lady was Swiss, and as you after pen enquired in a vain effort to put "Lena Archibald" on the court records, she only smiled the more blandly and looked confidently toward the seated looking young man who was feeling in his pockets for the fee. "Pshaw!" remarked the justice, afterward, "I don't blame her any for wanting to change that name. But I'd rather like to have than fill out another certificate like that," and the witnesses nodded approvingly.

—The seventh annual reunion of the Southwestern Veterans association, will meet at Mineral Point June 9th and 10th. Among the speakers who are gentlemen well known in Wisconsin and Illinois, is seen the name of Captain Phin Norcross, of this city. On the last day the Monroe Guards and Darlington Rifles will give exhibition drills, and it is expected that there will be artillery and cavalry drills by old soldiers. On the evening of the 9th, there will be a grand professional display of fireworks by the Flambeau Torch club, which has been arranged for at great expense, and no doubt will prove attractive.

—Saturday morning Master John Fisher was in the city after three of his teachers, Miss Minnie Parker, Miss Bertha Styles and Miss Jennie Peterson, who, after a ride of three miles reached the home of his father, Mr. E. W. Fisher. The rest of the morning was spent about the farm and after dinner they were taken to his trout springs to spend the afternoon.

At seven o'clock this morning the thermometer indicated 63 degrees above zero. Cloudy, with occasional rain.

At one o'clock p. m. the register was 73 degrees above zero. Cloudy, with south wind. For the corresponding hours one year ago the register was 62 and 51 degrees above zero.

For Wisconsin—Local rains, slightly cooler, variable winds.

## WATER WORKS.

Regular Meeting of the Water Commissioners.

Reservoir—Direct Pressure—Water Power vs. Steam.

The board of water commissioners held a regular meeting last evening, President Pense in the chair and all the commissioners present.

Com. Eldridge offered a resolution adopting the "direct pressure" system of works for this city.

This resolution drew out a lengthy discussion which occupied nearly the entire evening, the discussion taking in the question of water power vs. steam, and also the location of the works. The commissioners are not a unit on this point, and in order that the question be thoroughly understood before adoption it was laid over until the next meeting, giving the commissioners an opportunity to consult hydraulic engineers.

The committee appointed to look up a location, have several points in view, but before either can be adopted they will be obliged to settle the question as to power, steam or water, direct pressure, and stand-pipe or reservoir.

After this important question is settled, the artesian well will be located and drilling commenced.

The commissioners are moving very slowly but surely, and are endeavoring to profit by the experience of others, so that when the water work plant is completed, it will be as near perfect as possible.

No other business of public importance was transacted, the board adjourning until the next regular meeting.

The New Bridge.

Alderman John Thoroughgood and other business men located on North Main street, are busy completing details and soliciting subscriptions for the new bridge to span Rock river between North Fourth street, on the east side of the river, and Race street, on the west side; and the indications are that the bridge will be built in a very short time.

Nearly half the amount required has already been pledged, and it is said that the remainder can easily be secured.

A bridge at this point would be of great benefit to the factories, and people of the first and second wards, who live north of the present bridge, and who are now compelled to travel from half a mile to a mile in going to and from their work, or take the dangerous chances of crossing the railway bridge.

This bridge will also greatly accommodate the teaming to and from the depots at the upper end of North Main street. We understand that a meeting will soon be held by those most interested, when a definite plan will be adopted, and the building of the bridge pushed to completion. The following is the paper being circulated for subscriptions to and in building the bridge:

JANESVILLE, WIS., MAY 31, 1886.

We, the undersigned, each for himself, and not one for another, hereby promise and agree to pay to J. J. B. Pense, the sum of money by us respectively hereto subscribed, on demand, or condition that said sum shall be applied toward the construction of a bridge from a point of junction with the westerly end of North Fourth street, in the second ward of the city of Janesville, across Rock river to a point on River street in the first ward of said city, near the head of the canal of the Janesville water power.

## CITY GOVERNMENT!

Regular Meeting of the Common Council Last Evening.

The Water Commissioners Ask and Receive an Appropriation for an Artesian Well.

Private Parties Obtain Permission to Build a Bridge Across Rock River Connecting North Fourth and Race Streets.

Routine and Miscellaneous Business Considered.

The common council held a regular meeting at the council chamber last evening at which His Honor, Mayor Winans, presided, all the aldermen being present.

The clerk read the journal of the last meeting which was approved.

The application and bond of W. Wilkins & Co., for a saloon license was presented, referred to the judiciary and license committee, found correct, and upon a favorable report by said committee, license was granted.

A communication was read from A. E. Burpee, lumber dealer, complaining of the manner in which the highway, street and bridge committee received bids for lumber for the bridges, and of their awarding the contract to a firm in which a member of the council was a partner. The communication was referred to the highway, street and bridge committee.

The clerk read a communication from the board of water commissioners asking an appropriation of \$3,000 for the purposes of sinking an artesian well. Referred to the finance committee.

The clerk read a number of bills against the various funds, which were referred to the finance committee.

Ald. Croft, of the finance committee, reported in favor of allowing sundry miscellaneous bills against the various funds as follows:

General fund.....\$200  
First ward fund.....100  
Second ward fund.....100  
Third ward fund.....100  
Fourth ward fund.....100  
Fifth ward fund.....100  
Sixth ward fund.....100  
Seventh ward fund.....100  
Eighth ward fund.....100  
Ninth ward fund.....100  
Tenth ward fund.....100  
Total.....\$1,000

The report was concurred in.

Ald. Croft, of same committee, reported back the communication of the board of water commissioners asking an appropriation of \$3,000 for the purpose of sinking an artesian well, accompanied with a resolution appropriating the sum of \$2,800, or as much of that sum as may be required, (that being the amount of the unappropriated license money.)

This resolution created a little discussion, and had the effect to draw out a test vote on the building of water works.

Ald. J. B. McLean proposed to amend by making the amount of the appropriation \$1,500, he stating that that sum was all the well at the farm ground.

Mayor Winans here suggested that the burning or looting of an artesian well, carried with it the question of locating the works—whether water power or steam power is to be used.

Ald. Croft stated that he interpreted the vote of the people at the recent election that they wanted water works, and that without unnecessary delay; that in order to ascertain whether we could have artesian water in this city it was also necessary for the commissioners to sink an artesian well; as for the location of the well he was perfectly willing to leave to the judgment of the committee.

Ald. McLean wanted a portion of the unappropriated license money for the bridge fund (\$800).

The vote was taken on the amendment of Ald. McLean and it was lost—Those voting aye were Ald. Casey, George J. B. McLean, C. C. McLean—4.

Those voting nay were Ald. Carpenter, Croft, Fathens, Judd, Rooney, Thoroughgood—6.

The original motion as offered by Ald. Croft was then adopted. Ayes—Ald. Carpenter, Croft, Fathens, Judd, Rooney, Thoroughgood. Nays—Ald. Casey, George J. B. McLean, C. C. McLean.

Ald. Rooney, of the police committee, reported that that committee had received propositions for the building of a patrol wagon for the police department, and that the bid of the Empire Cress Spring company was the lowest \$160, and on his motion the contract was awarded to that company, the wagon to be built according to specifications.

On motion of Ald. J. B. McLean, of the fire department committee, the chief engineer was authorized to procure a book in which to keep a record of fires.

Ald. Thoroughgood stated that only two parties had taken out a wholesale license this season, but that nearly all the saloons were selling liquor "not to be drunk on the premises" in violation of law, and on his motion the city marshal was instructed to enforce the law regarding that matter.

Ald. J. B. McLean, of the highway, street and bridge committee, reported back the communication of A. E. Burpee, relating to the bids for bridge lumber, with the statement that the committee asked for bids for a certain kind of pine lumber, and that the successful bidder was furnishing the kind of lumber the committee had asked for.

Ald. Judd—that the city engineer furnish the street commissioner with the grade of North Hickory street. Adopted.

Also that the street commissioner repair North Hickory street, under the direction of the aldermen of the ward.

Also that the city clerk be directed to advertise for bids to furnish the city with the different kinds of lumber required. Adopted.

Ald. Judd—An order that the street commissioner remove the obstructions from Sheldon street, from Elm street to Main street, second ward. Adopted.

Ald. Thoroughgood—that the street commissioner extend the stone wall in the gutter on Glen street, in front of the premises of George Barriage, and that the alleyway leading from Glen street to North Fifth street be repaired under the direction of the aldermen of the ward.
